The Waterside

A staircase out of the ordinary.

Laser-cut, powder-coated steel waves run through a solid oak standard string staircase, proof that even a classic form can still surprise.

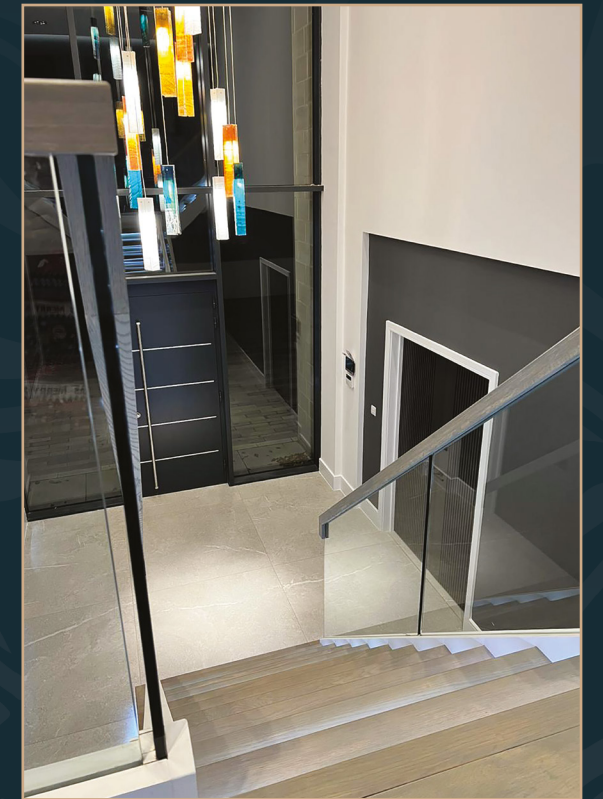

VIEW RANGE

The Roberta

A waterfall of glass and oak. Finished with minimalist 15mm clear toughened glass, the infinity-style profile gives this a sense of movement few others can match.

VIEW RANGE

The Chilton

Months in the making, and unlike anything else in the collection. A bespoke, custom-made oak spiral staircase, built to a brief as unique as the home it sits in.

VIEW RANGE

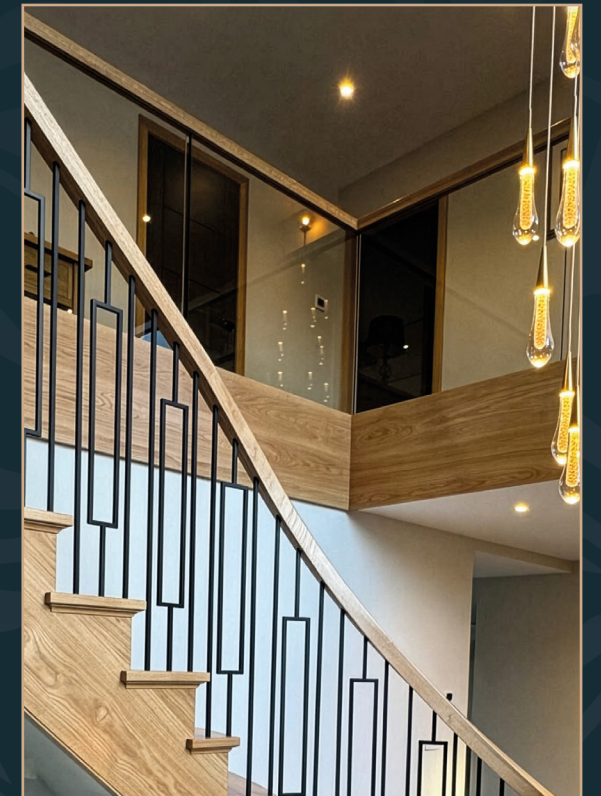

The Runnymede

A genuine statement staircase. This sweeping curved design in poplar and oak, paired with clear toughened glass, is one of a kind, built to be the first thing you notice and the last thing you forget.

VIEW RANGE

The Throston

Our cantilever floating staircase, and one of the most requested designs in new-build homes. Steel stringers create the illusion of treads suspended in mid-air, striking, modern and unmistakably ours.

[VIEW RANGE](#)

The Upsall

Class, with a cut. A cut string staircase finished to bring out every line and curve, set in a home where the landing does as much work as the stairs themselves.

VIEW RANGE

The Wheatland

Finished in a solid black French polish, The Wheatland proves that the right finish can turn a staircase into the centrepiece of a home.

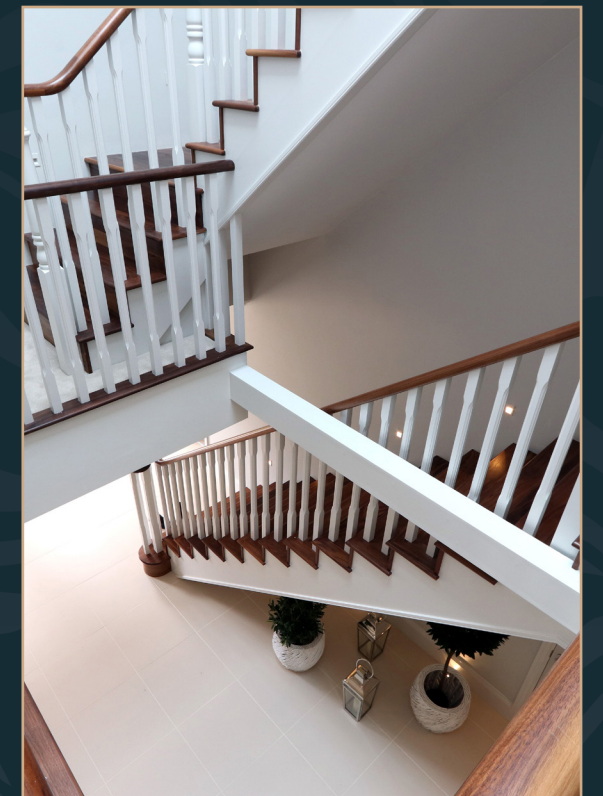

VIEW RANGE

The Manor

A staircase built for grandeur. Oak spindles, hand-turned by our own wood turner, bring a level of individuality you won't find on a standard staircase.

VIEW RANGE

The Moreland

A steel mono stringer staircase finished with solid oak treads and French polish, engineering and craftsmanship working in tandem.

VIEW RANGE

20

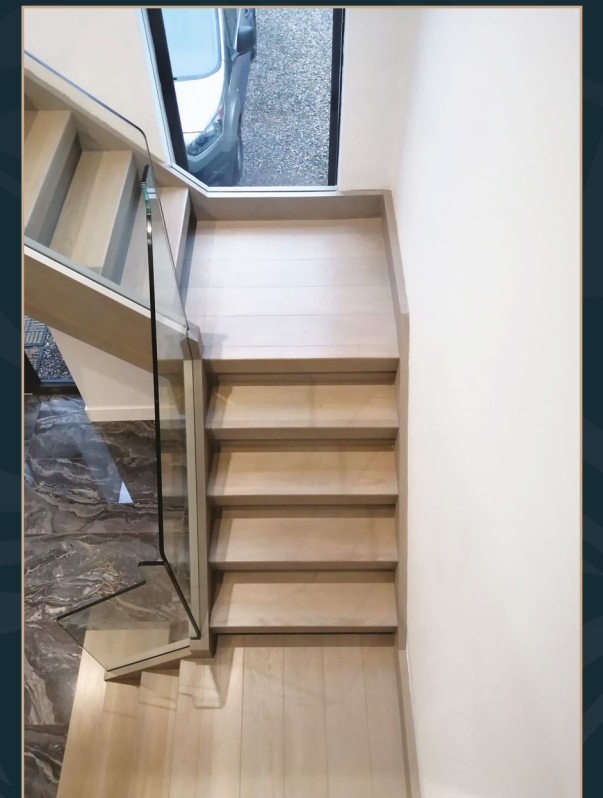

21

The Northwood

A closed string staircase, done properly. Solid oak treads and risers, finished with an oversized 100mm tread nosing for a profile that feels as substantial as it looks.

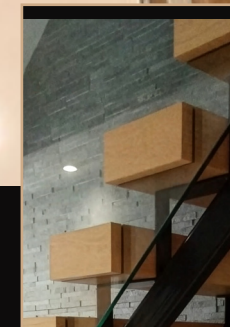

VIEW RANGE

GRAND LUXIA

Grand Luxia is where exceptional craftsmanship meets refined design and uncompromising quality. Bespoke staircases created for those who expect nothing less than extraordinary.
